

# *Inspire Awe* with **CaveSim**

Many organizations put on “special events.”  
But what makes them *truly* special?  
Bring CaveSim to your next event.  
More than special, it will be *magical*.

What makes CaveSim programs so *magical*? Maybe it's exploring 60' of artificial cave with beautiful formations and computer scoring.

Or close encounters with bat biology and exciting demos with carbide lamps.

Or the thrill of dangling 12' in the air while trying vertical caving.

Or getting carried in a real cave rescue stretcher.

Or maybe it's learning amazing things without even realizing that you're learning.

Or the squeezebox.

The bottom line: CaveSim LLC brings incredible mobile caves and amazing programs all over the lower 48 states. Contact us to schedule your very own CaveSim program:
