

# *Inspire Awe* with **CaveSim**

**Your school's work is essential in creating bright futures.**

**CaveSim exists to support you by inspiring deep passion for learning.**

**Let's work together to bring CaveSim to your school.**

**Together we'll shape the future with an awe-inspiring experience.**

What makes CaveSim programs so educational and fun? Maybe it's exploring 60' of artificial cave with beautiful formations, computer scoring, and science lessons.

Or close encounters with bat biology and exciting chemistry demos with carbide lamps.

Or the thrill of being 12' in the air while learning physics and vertical caving.

Or using a real cave rescue stretcher to learn teamwork and communication.

Or maybe it's learning amazing things from CaveSim labs and project-based learning.

Or practicing math in the squeezebox.

The bottom line: CaveSim LLC brings incredible mobile caves and amazing standards-aligned preK-12 programs all over the lower 48 states. Contact us to schedule your CaveSim program:
